Professional Summary

MCA graduate and Full Stack Developer with practical experience in Java, Spring Boot, React.js, Node.js, PHP, ASP.NET MVC, MySQL, and MongoDB. Completed a Frontend Development Internship focused on responsive web development, debugging, version control, and SDLC practices. Developed multiple full-stack applications using modern technologies and published AI research. Strong problem-solving skills with a passion for building scalable software solutions and continuously learning new technologies.

Technical Skills

Languages & Frameworks: Java, Spring Boot, Python, Django, JavaScript, PHP, React.js, Node.js, ASP.NET MVC, Flask, Laravel

Frontend Development: HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design, UI/UX Design

Database Management: MySQL, MongoDB, Relational Database Design

Testing & QA: Selenium, Automation Testing, Debugging, Secure CMS Design

Tools & Platforms: Git, GitHub, GitLab, DevOps, Figma, Wireframing, Microsoft Excel, Microsoft PowerPoint

Other: OCR Integration, Software Deployment, Agile Methodology, Requirement Analysis

Work Experience

Frontend Development Intern, Pleximus Inc.

Dec 2025 – Jun 2026

- Developed and maintained 5+ responsive web applications using HTML, CSS, Tailwind CSS, JavaScript, and Bootstrap, improving cross-device usability.
- Designed user-friendly, accessible interfaces and collaborated with backend developers on PHP and Laravel-based applications to deliver integrated full-stack features.
- Used Git and GitLab for version control and team collaboration across multiple sprints; assisted in debugging, testing, and performance optimization.
- Participated in requirement analysis and the full software development lifecycle (SDLC), strengthening frontend development and problem-solving skills.

Projects

QuizGenAI – Intelligent Platform for Dynamic Quiz Creation

Aug 2025 – Sep 2025

- Built a dynamic quiz-generation platform using HTML, CSS, MySQL, and ASP.NET MVC with database-driven question management for customizable, real-time quiz creation.

AI Grievance Resolver – Automated Grievance Prioritization System

Jul 2024 – Aug 2024

- Developed an intelligent grievance-resolution system using HTML, CSS, Bootstrap, MySQL, and Flask with automated prioritization logic for grievance categorization and resolution.

Cloud Kitchen – Online Ordering System with OTP Authentication

Jun 2023 – Jul 2023

- Built an online cloud kitchen ordering system using Node.js, MongoDB, HTML, CSS, and JavaScript with OTP-based authentication for enhanced security and user verification.

Education

Finolex Academy of Management and Technology – Master of Computer Application (MCA, 82.15%)

Jul 2026

Gogate Joglekar College – Bachelor of Science, Information Technology (GPA: 8.67 / A+)

Dec 2024

R.B. Shirke College of Commerce and Science – Higher Secondary Certificate (HSC, 70%)

Dec 2021

R.B. Shirke High School – Secondary School Certificate (SSC, 72%)

Dec 2019

Achievements & Certifications

- Published research paper "Vision Walk: AI-Driven Real-Time Visual Assistance System for Visually Impaired Navigation" in IJSRST (International Journal of Scientific Research in Science and Technology), May 2026.
- Secured 2nd Rank, State-Level Quiz Competition, Navnirman College, Ratnagiri (Jan 2021).
- Secured 1st Rank, State-Level Gaming Competition, Navnirman College, Ratnagiri (Jan 2021).
- Participated in Robovision, a tech event showcasing robotics and innovation (2024).
